Mrs. Houston

McM

Larry:

I informed LIFE that this would be brought to Mr. Powers' attention, but that Mr. Powers considers his public appearance to have been completed as of yesterday, and therefore, he would not in the immediate future be available for the so-called exploratory talk which would result naturally in his having to give them considerable information at a time when he should be seeing the Press.

LIFE understood the situation and is not pressing for the immediate future, but would like to consider a deal with them later on if it is a story that they would be interested in buying.
